Mr. HARRISON G. OTIS, the new proprietor and editor of the Santa Barbara Press, indulges in the following strictures on the intelligence of the Express of this city:

"It is a pity that you and especially fame for the new editor. The man of the Los Angeles Express did it with his little hatchet. 'Colonel' G. Harrison, a writer of reputation in the Western States, has purchased the Santa Barbara Press, and has arrived in that city with his family to assume the control of his paper. This is equal to what military fame is said to consist in—being shot in battle and having your name spelled wrong in the gazette."

The first gun of the Presidential campaign has been fired and the smoke smells strongly of Republican powder. The wires are flashing the news of the Administration victory in New Hampshire to the remotest corners of the nation. The Republicans have made heavy gains everywhere and elected the Governor and probably a majority of all the Legislative branches. The Evening Republican must have been mistaken when it said the exposure of BELKNAP was a political move to assist the Democrats in New Hampshire. At least the assistance derived therefrom does not appear to have been material. Well, better luck next time. A bad beginning may have a good ending.

SENATOR LEWIS of Tehama will probably come up for office some day in the future, and in order that the newspapers may know in what estimation they are held by so great and good a man, we publish the following from the Senate's proceedings of the 10 inst. Mr. Laine concluded his violent philippic against a free press and in favor of the signature bill and Mr. O'Connor rose and requested to ask the Senator a question, when the following dialogue occurred:

Laine—Certainly.

to and Republican parties and in a few months the new organization was the dominant party of the State. Had its leaders been composed of men acting from principle and devoted to the interests of the people, it would have retained its power and majority to this day. But it was wanting in those elements. Its leaders were place hunters and demagogues whose sole purpose was office and spoils and the party that numbered in its ranks many of the best men of both the old organizations, soon became demoralized and died an early and unregretted death. Now what has become of the rank and file of the Independent party? Have these voters affiliated with either the Democratic or Republican parties? We do not think they have. Many of the voters who left the Republican party to become Independents were Democrats who left their party at the opening of the Rebellion. Naturally these men would, after the Independent experiment, return to their old allegiance and the result of the late gubernatorial election indicated a general inclination to pursue this course. The unsatisfactory record of the Democratic majority in the Legislature has however checked the tide and whether it will back up again and go on again or turn back upon itself and flow into the Republican camp depends almost altogether on the action of the now dominant Democracy. We are not of those who hold that party names retain its old influence. The death of King causes the defiance of the party lash and the indifference to party name all point with the unerring certainty of the needle to the pole, that the people have learned the art of reading, thinking and acting for themselves. The name Democracy has lost its magic influence unless accompanied by the grand old principles on which the party was founded. The higher law battle cry of the Republicans will no longer gather voters around the standard of that party unless action follows close on the heels of promise. Party name and King Caucus lie crushed and powerless beneath the heel of intelligent independence. The day is dawning when no honest man will cast a ballot on account of the party whose candidate it represents. If they hope for success at the polls and future endorsement from the people, the leaders of both the Democratic and Republican parties must learn that the voters not only require promises from their servants but a fulfillment to the letter of those promises. The rank and file of the Independent party will enroll themselves with the party whose record offers the most satisfactory proof of honest, economical and intelligent administration. That of the Republican party is full of stains and blemishes. That of the Democracy is new, and extends back but a few months, but it is objectionable in many respects and unless there is an early and radical change for the better, will not, we fear, prove more acceptable than that of their old antagonist. We repeat that the voters of the Independent party have not yet decided with which of the two great parties they will affiliate and their choice depends entirely on the actions of those parties themselves.

The Panamint Mines.

The Coso Mining News of February 24th, has the following cheering intelligence from Panamint:

From private correspondence we learn that Panamint is looking up, the mines in general are doing much better and all things are looking brighter. Judge J. M. Murphy called upon us last Monday and informed us of the following facts. The Surprise Valley Mill and Water Company made a shipment on the 19th instant, of seven tons of bullion, weighing 2,300 pounds and being 990 fine. The bullion was made from ores of the Hemlock, in which we stated last week a strike had been made. The value of the bullion shipped is \$35,000, and it was run out or manufactured in a little more than three weeks. It is the largest shipment ever made by this company, and it certainly does not augur that Panamint is "petered out."

Ireland's patron saint will receive due honor from the people of Los Angeles to-morrow. A parade, balls and literary exercises are advertised and the citizens generally will participate. From the preparations we are convinced that the celebration of St. Patrick's day will be more enthusiastic than usual all over the United States and our patriotic Irish citizens will not be lukewarm in the general jubilee.

The teamster who has been engaged in removing the filth from the Northeast corner of Aliso and Alameda street was not yesterday visible to the naked eye. We expect to hear that he is down with typhus fever, as most of the people living in that neighborhood are beginning to show symptoms of that disease.

Mr. Winger's little girl met with a bad accident yesterday. While playing with some other children, she fell and her knee struck a piece of broken bottle, inflicting a painful wound. Dr. Sims was called to attend to the case and we hope it will not prove serious.

Mr. Guenette is organizing an amateur company and will favor us with a concert.

This left only 11 shares to be sold, being the unsold balance left from a previous sale of stock. The 11 shares offered were taken by one of the directors of the bank for the amount of assessment—\$10.

EASTERN NEWS.

New Hampshire Election.

CONCORD, N. H., March 14th.—The vote up to noon has been unusually large and the Republicans made an increase from last year. They will doubtless gain between 100 and 200 over last year's vote in the central wards. In the Fourth, Sixth and Seventh wards a count was made at noon, which gave on the State ticket 283 for Cheney, Republican candidate for Governor, and 280 for Taylor, Democratic candidate.

Geo. E. Todd, Republican candidate for State Senator in District No. 4, is running considerably ahead of his ticket. In this city the dispatches so far have been favorable to the Republicans.

Later.

CONCORD, N. H., March 15.—The summary of actual returns received up to one o'clock is as follows: One hundred and ninety-nine towns and wards give Cheney, 31,763; Taylor, 28,392; Hendall and scattering 310, same towns last year gave Republicans, 33,393; Democrats, 28,373; Prohibition and scattering 201. Republican majority in the House, last year was 11. Doubtless Cheney is elected Governor by the people and Republicans claim that his majority will be as high as 1,500 to 2,000. They also claim the House by 15 to 25 majority, but the exact figures are not yet in.

After the election, Democrats think the House is very close and in doubt, the Republicans claim 8 out of 12 Senators. The Democrats claim a majority in the Council. The Republicans have probably carried 6 out of 10 counties which last year were Republican and 5 Democratic. With the exception of the House the status of which can only be determined by further returns, and Council, which is doubtful, the Republicans have made a clean sweep.

Boston, March 15th.—The latest returns from New Hampshire insure Cheney's election by a small majority, with a Republican House and Senate. The Democrats have made gains in the Northern counties. Cheney's friends claim that his majority will be 1,500. The Senate stands 9 Republicans and 3 Democrats. The election of a Republican Senator is assured.

Phillips Explains.

WASHINGTON, March 15th.—Col. D. L. Phillips of the Springfield States Journal, who has been spending several months in California, as a special agent for the Government, arrived in this city yesterday morning. He denies that there is any truth in the statement which is reported to have been made by him in Chicago reflecting on Senator Sherman, and at the Custom House in San Francisco. He says there may also be frauds in the service on the Pacific coast, yet the agents of the Government have as yet failed in digging up any thing of consequence.

Wants to Know You Know.

WASHINGTON, March 15th.—Jas. B. Holland, an employee of the Associated Press, who is the author of the statement that the Cabinet, at the session on Friday, March 2d, resolved to apprehend Marshall and Tomlinson, has been summoned to appear before the House Judiciary Committee to-day and tell where he got his information. It is understood that he will refuse to do so, in which case he will be committed to the District jail.

Drexel, Morgan & Co. are paying drafts and telegraphic transfer of Tallant & Co. of San Francisco on the suspended bank.

Night Dispatches.

[FROM THE SPECIAL REPORTER OF THE DAILY HERALD.]

Legislative Proceedings.

SACRAMENTO, March 14.—The Senate today 10 A. M. Lieut. Governor Johnson presiding.

Lewis, from the Judiciary Committee, asked for further time in which to consider the irrigation bills now pending in said Committee. This request evoked great opposition from the members of the Senate who desired immediate action.

Evans compromised the difficulty by moving that the Judiciary Committee be instructed to report the Walsh sub-irrigation bill to the Senate on Friday morning. Carried. It was further moved that the Committee have indefinite time in which to consider the remaining bills on irrigation.

The special order, Auggrey's bill imposing a stamp tax on foreign bills of exchange, insurance policies and certificates of stock, was taken up and the yeas and nays were called on the bill by the following vote: yeas, 21; noes, 11.

A message from the Governor announced that he returned without approval of the bill making the St. Joseph Hospital Association of San Francisco a special corporation. The veto message accompanied the bill.

The second special order, the Governor's veto in the Senate bill providing for an academy at Red Bluff, was then called, and the Senate, by an almost unanimous vote, sustained the veto.

Lane reported the Assembly bill preventing the waste of subterranean waters from artesian wells in the counties of Los Angeles and Santa Clara. The rules were suspended and the bill passed.

The Assembly met at 10 A. M., Mr. Speaker in the chair.

McConnell from the Judiciary Committee reported Abbott's bill prohibiting the removal of the remains of deceased persons from this State. This bill is intended to prevent Chinese emigration, as it is a well known fact that those people will not go to or remain long in a country where in case of their dying the laws would prohibit the removal of their remains to China. It is a prevailing superstition among the Chinese that their spirits will never be at rest unless their bodies rest in the land of their ancestors.

On motion of Murphy of Del Norte the bill providing for a Commissioner of Transportation was made the special order for Monday the 20th inst.

Bills were introduced by McConnell appropriating money to pay the present outstanding indebtedness of the State Agricultural Society. Referred to the Committee on Agriculture.

The House took up for consideration the bill providing for the payment of the balance remaining due the Indians under the contract of the State of California, and upon a call of the yeas and noes the bill was indefinitely postponed by a vote 64 yeas to 5 noes.

Second Trial of Granite.

FRESNO, March 15th.—After the evidence on the part of defendant was closed, Ward, for the prosecution, moved that the jury be charged and the case resubmitted to another Grand Jury on the ground that the evidence proved the defendant guilty of a higher crime than that charged in the indictment. After the conclusion of Ward's argument, Terry, for the defense, stated that he was satisfied that the evidence on the case referred to was in direct conflict with the constitution; that he did not wish to argue the question. Dudley argued for the prosecution and the court sustained the motion, discharged the jury and committed the defendant to the custody of the sheriff of Fresno county to await the action of a future Grand Jury, all of which defendant accepted. It is claimed by defendant's counsel that the order of court discharging the jury is in effect an acquittal under the decisions of the Supreme Court in cases of this kind. The people at large, and people vs. Hunkeler, 4th Cal., and was the reason why no argument was made in opposition to the motion. Probably that new indictment will be found, and the question as to the effect of today's verdict on the case brought before the Court for decision.

FOREIGN.

French News.

PARIS, March 14.—The Senate elected Duke Daudet-Raspail President. Marcel and Daudet of the left, and Gen. L'Admiral and Keriel of the right Vice Presidents. This result produced sensation as the left desired the election of Jules Simon to the Vice Presidency. He however only obtained 120 votes, while Keriel, the lowest successful candidate, received 132. Lepage de Raimonville and Vaudier of the right and Saint Valtre and Scheurer Ketzner of the left were elected Secretaries. The other Secretaries will be elected to-morrow. Bass and Dos Agnes of the Lavergne faction and Gen. Eyraud of the right were elected. The Chamber of Deputies elected Rivet President, he receiving 402 votes against 6 for Civerac of the right centre. Pethmont, Remans and Laplace of the left were elected Vice Presidents. Gambetta proposed that eight Secretaries be elected instead of six to increase the representation of the majority. The proposition was accepted and Leonce Lavergne of the Legitimist group, Lamy and Clemenceau of the left and Daudet of the right were elected. Secretaries of the left were elected. Questions and two more will be elected to-morrow. Ricard who is without a seat either in the Senate or Chamber of Deputies is resolved to resign his seat as Minister of the Interior unless he is elected to the Senate or Chamber of Deputies. He has been elected to the Chamber of Deputies by the death of De La Rochette.

In our yesterday's issue we noted the auction sale of Mayor Beaudry as coming off on Tuesday. This is wrong; the sale will take place on Monday, March 20th, and we advise all who want to secure houses at their own prices—and all who desire to make the Dutchman's "one per cent" to attend this sale and purchase some of this excellent property. It is certain to increase in value enormously during the next few months, and those who are wise enough to take advantage of the present opportunity will make a nice thing by the rise. Inquire as to the character of the property to be offered and go to the sale prepared to purchase.

Messrs. Burgess and French concluded to go to the race the other day, and hitched up a span of horses to a light wagon for the purpose. The horses either not approving of that kind of sport, or being frightened at the noisy crowd gathered around them, refused to proceed, and after about two hours' coaxing were taken out and the vehicle drawn by man power down on Los Angeles street. Somewhat later the horses were again put to the wagon, and there being only good looking people around, and no crowd, they were both fanned and coaxed, upon which one of them proceeded to do a little "cussing" and everybody got a full share. He ought to have been sent to the chain gang for sixty days as a lesson for his profligacy.

The Los Angeles street horse railroad is already in operation as far as freight is concerned, as we saw yesterday one heavily loaded car standing on the track on Los Angeles street and another on its way from the Santa Monica depot up town, the motive power being horses. Making a whistle out of a pig's tail has always been classed among the impossibilities, but a Kansas inventor has at last triumphed over all obstacles. Here is the description taken from an Eastern paper: "Lo! here was the veritable whistle made of a pig's tail.
